

Main group 1: Disinfectants		
PT 1	Human hygiene	for human hygiene purposes, applied on or in contact with human skin or scalps
PT 2	Disinfectants and algaecides not intended for direct application to humans or animals	for the disinfection of surfaces, materials, equipment and furniture which are not used for direct contact with food or feeding stuffs
PT 3	Veterinary hygiene	for veterinary hygiene purposes
PT 4	Food and feed area	for the disinfection of equipment, containers, consumption utensils, surfaces or pipework associated with the production, transport, storage or consumption of food or feed for humans and animals
PT 5	Drinking water	for the disinfection of drinking water for both humans and animals
Main group 2: Preservatives		
PT 6	Preservatives for products during storage	for the preservation of manufactured products, other than foodstuffs, feeding stuffs, cosmetics or medicinal products or medical devices by the control of microbial deterioration to ensure their shelf life
PT 7	Film preservatives	for the preservation of films or coatings
PT 8	Wood preservatives	for the preservation of wood, from and including the saw-mill stage, or wood products by the control of wood-destroying or wood-disfiguring organisms, including insects
PT 9	Fibre, leather, rubber and polymerised materials preservatives	for the preservation of fibrous or polymerised materials, such as leather, rubber or paper or textile products by the control of microbiological deterioration
PT 10	Construction material preservatives	for the preservation of masonry, composite materials, or other construction materials other than wood by the control of microbiological and algal attack
PT 11	Preservatives for liquid-cooling and processing systems	for the preservation of water or other liquids used in cooling and processing systems by the control of harmful organisms such as microbes, algae and mussels
PT 12	Slimicides	for the prevention or control of slime growth on materials, equipment and structures, used in industrial processes, e.g. on wood and paper pulp, porous sand strata in oil extraction
PT 13	Working or cutting fluid preservatives	Products to control microbial deterioration in fluids used for working or cutting metal, glass or other materials
Main group 3: Pest control		
PT 14	Rodenticides	for the control of mice, rats or other rodents
PT 15	Avicides	for the control of birds
PT 16	Molluscicides, vermicides and products to control other invertebrates	for the control of molluscs, worms and invertebrates

PT 17	Piscicides	for the control of fish
PT 18	Insecticides, acaricides and products to control other arthropods	for the control of arthropods (e.g. insects, arachnids and crustaceans)
PT 19	Repellents and attractants	to control harmful organisms (invertebrates such as fleas, vertebrates such as birds, fish, rodents), by repelling or attracting, including those that are used for human or veterinary hygiene either directly on the skin or indirectly in the environment of humans or animals
PT 20	Control of other vertebrates	for the control of vertebrates
Main group 4: Other biocidal products		
PT 21	Antifouling products	to control the growth and settlement of fouling organisms (microbes and higher forms of plant or animal species) on vessels, aquaculture equipment or other structures used in water
PT 22	Embalming and taxidermist fluids	for the disinfection and preservation of human or animal corpses, or parts thereof
